

49.5"
(1257mm)

A technical line drawing of a chandelier. It features a central vertical stem with a rectangular canopy at the top. The stem has break symbols (wavy lines) indicating it is longer than shown. At the bottom of the stem is a square junction box. From this box, four diagonal arms extend outwards, each ending in a candle-style light bulb with a flame. Two horizontal arms also extend from the junction box, each ending in a small rectangular component. The entire fixture is mounted on a circular base. Dimension lines with arrows indicate the height, width, and arm length.
